Dear Sienna Davies-Branch:

Thank you for visiting FH Centra Care Orange Lake today. You have been diagnosed with:

Varicella non-contagious

There is no contradictions to travel or flying.

The following are specific instructions and information for your care:

Please understand that you have been evaluated for an episodic event and this visit cannot be substituted for the continued care and monitoring by your primary care physician and specialist(s). It is not unusual that a medical condition can present itself in one way, and then progress or change and lead to another impression of your medical condition. Therefore please insure that you follow up with your primary care provider within the week. If you should have any new or worsening symptoms, please go to the closest emergency department for further testing and evaluation. If there is any discrepancy in the interpretation of your x-ray/lab work, we will attempt to contact you. You understand that it is your responsibility to call us for the results if you have not been contacted within 5 days. Thank you in advance for your kind understanding.

These are the directions for your continued care:

Return to Centra Care as needed.

If you have any questions or concerns, please call FH Centra Care Orange Lake. If your condition worsens, return to FH Centra Care Orange Lake or go to the closest hospital emergency room. Please follow-up with your Primary Care Physician for your ongoing healthcare needs. If you do not have a Primary Care Physician, FH Centra Care Orange Lake can assist you with finding a local doctor.

Sincerely,

Franz Ritucci MD
